# **aberto ao público: uma investigação sobre a tipologia prisional no espaço urbano**

Juliana Colombo  
Orientador Daniel Pitta Fischmann

A Polícia Civil informou nesta sexta-feira (2) que indiciou 15 presos pelo massacre que resultou na **morte de 58 detentos** no Centro de Recuperação Regional de Altamira, sudoeste do Pará. O inquérito ainda não foi finalizado e mais detentos podem ser indiciados pelo crime.

**Preso que se vestiu de mulher é encontrado enforcado no Rio**

**Mortes em presídio no PA vão a 58 após localização de corpo em escombros**

**Detento é encontrado morto na Penitenciária Nelson Hungria**

As causas da morte do preso ainda estão sendo investigadas. O homem foi encontrado morto durante uma conferência realizada por agentes penitenciários

## 726.712 é o número de presidiários no Brasil.

40% estão em prisão preventiva, seguido por 38% em regime fechado, 15% em semiaberto e 6% em regime aberto. a maior parte das vagas se destina ao regime fechado (42%).

## Brasil é o **terceiro país** no ranking de maior população carcerária do mundo.

atrás apenas dos Estados Unidos, com 2.121.600 pessoas, e da China, com 1.649.804.

## A cada 100 mil pessoas, existem, no país, **336 presos**.

ocupando a 26ª posição no ranking, o Brasil está entre os países que mais prendem no mundo. na américa do sul, é o que apresenta a maior taxa de aprisionamento.

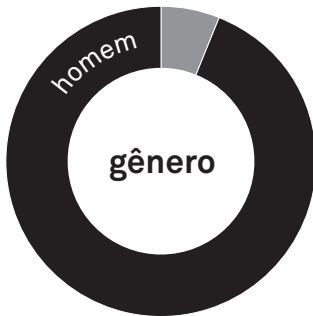

## A taxa de ocupação das prisões no Brasil é de **197%**.

de um total de 726 mil reclusos, o país possui pouco mais de 368 mil vagas. o reflexo deste descompasso é um cenário já conhecido: cadeias superpopuladas e condições de vida sub-humanas.

## Desde os anos 90, a população carcerária **aumentou 707%**.

em 1990, os privados de liberdade no brasil eram 90 mil; em 2016, pela primeira vez na história, ultrapassa a casa dos 700 mil. há quase 30 anos, este número exorbitante nunca parou de crescer.

Desde os anos 90, a população  
carcerária  **aumentou 707%.**

**existe alguma forma de transformar essa realidade a partir da arquitetura?**
